

Sam Katanich

The bearer of this Aerial Thermography certificate has completed an online curriculum in the theory and application of aerial-based thermography and has demonstrated knowledge in concepts like emissivity vs reflectivity, radiometric sensors, flight considerations and project assessments.

The bearer of this certificate also maintains a commitment to sUAS operational safety and is prepared to conduct operations in both inspection and public safety applications.

A handwritten signature in black ink, appearing to read "Alan Perlman".

Alan Perlman

UAV Coach // Drone Pilot Ground School
